Fourth grade (also called grade four, equivalent to Year 5 in England and Wales) is a year of Elementary education in some countries. In North America, the fourth grade is the fifth school year of elementary school. Students are usually 9 or 10 years old, depending on their birthday, unless they started school at an earlier or later date than the average student.

Fourth grade - Wikipedia

However, the content of most 4th grade curricula pushes students to think, analyze, and learn in more sophisticated and structured ways than they did in the "lower" grades. In 4th grade, students learn how to deeply think about and make connections in new material, and grasp more complex concepts across all subjects.

Preparing for 4th Grade | Exciting And Challenging ...

Submitted by Renee from New York, First Grade. During the summer I send each student a letter introducing myself and telling them a bit about me. I ask them to bring a box to school on the first day with things --no more than 7 (objects, pictures, etc.) that tell about them, their family, and things they like.

STW - Beginning of the School Year

The choice of a fourth grade math curriculum is an important one. It can be a "turning point" year in terms of either feeling successful or frustrated with math. Students will start to learn that there is more than one way to solve a math problem, and they will begin applying what they are learning in math to real world issues.
