Transmission identification - Crankshaft Coalition
It is a 5 speed manual transmission. The transmission was developed through a joint deal by General motors and Chrysler. It entered production in 1993. It can be difficult to ID it for two reasons. The first is that the case is similar to some transmissions that came before it. The second is that it doesn't come with ID numbers.

NV3500 Specs + Identification | Drivetrain Resource
The abbreviation "WC" stands for "world-class", which was the term Borg-Warner used to promote improved, second-generation versions of their popular five speed manual transmissions. World-class T5's were used in various Ford models starting in the 1985 model year, and in various GM models starting in the 1988 model year.
