of the 737 NG over the 737 Classic is that Boeing allow for intermediate base C checks before the D check to reduce the time, work and expense required at the D check. Operators that have a maintenance programme with a P48 check can have a base check interval of eight phases (hence the name P8), where one phase = 500FH, and so

Boeing: Maintenance Training

BOEING has been told that it can fly its 737 MAX jet again, following a 20-month flight ban due to two fatal disasters. The US Federal Aviation Administration said a number of software upgrades and training changes had to be made, before commercial flights were allowed to resume though.
