One of the most widely used green building rating systems for certification is LEED. LEED stands for Leadership in Energy and Environmental Design. It is an internationally

Online Library Green Building And Lead Core

recognized green building rating system that verifies construction used environmentally sustainable strategies.

What is Green Building and LEED Certification?

The Leadership in Energy and Environmental Design (LEED) Green Building Rating System for Core and Shell Development (LEED-CS) is a set of

Online Library Green Building And Lead Core

performance standards for the sustainable design and construction of speculative and core and shell buildings. LEED-CS joins current rating systems for new construction of whole buildings (LEED-NC), operations and maintenance of existing buildings (LEED-EB), and fit out of commercial interiors (LEED-CI).
