Half Real Video Games Between

Video games as both a departure from and a development of traditional games; an analysis of the interaction between rules and fiction in video games. A video game is half-real: we play by real rules while imagining a fictional world. We win or lose the game in the real world, but we slay a dragon (for example) only in the world of the game.

Half-Real: Video Games between Real Rules and Fictional ...

Half-Real: Video Games between Real Rules and Fictional Worlds. The Half-Real of the title refers to the fact that video games are two rather different things at the same time: video games are real in that they are made of real rules that players actually interact with; that winning or losing a game is a real event.

Half-Real: Video Games between Real Rules and Fictional Worlds

Video games as both a departure from and a development of traditional games; an analysis of the interaction between rules and fiction in video games. A video game is half-real: we play by real rules while imagining a fictional world. We win or lose the game in the real world, but we slay a dragon (for example) only in the world of the game.

Amazon.com: Half-Real: Video Games between Real Rules and ...

Published in 2005 by Jesper Juul, Half-Real is an exploration of video games as combinations of formal rulesets and informal fiction. The title of the work is derived from the claim that, while the fiction surrounding a game (say, chess) is seemingly arbitrary and matters within an imaginary circle of play, the rules themselves assert power over the player and reality -- any game is "half-real."
