The same thing happened to me too. My Hitachi 50VF820 LCD Projection is only 2.5 years old and the light/color engine is going out. In 2.5 years I've changed the lamp (\$250), the remote quit working one week after the warranty went out, and now the light engine is going bad. I hear the repair for the light engine is at least \$700+.

Hitachi 50V500 LCD Rear Projection TV. This Hitachi TV apparently had a lot of problems with the light engine. The UV rays from the lamp is shined through the lcd panels. In the light engine the LCD panels weren't sufficiently cooled so a cloud forms on one of the panels. In my case it was the red panel that got destroyed.
