### How to Construct an Essay Argument: 13 Steps (with Pictures)

Constructing an argument. When writing an essay it is essential to construct an argument. An argument is a particular stand on an issue or question. It is made up of a series of claims. There are two types of claim: the conclusion: the final claim that you are trying to prove.

### Constructing an argument - OWLL - Massey University

In the spirit of improving my debating skills (both written and oral) I'm setting out on a short project to learn, re-familiarize, and remind myself to build sound arguments. Of all the tutorials on doing this I've found, I like this one from Purdue the most, and I'll be using it to construct this short primer that I'll probably end up converting to a study article.

### How to Build a Strong Argument | Daniel Miessler

When you're writing a persuasive essay, you need more than just an opinion to make your voice heard. Even the strongest stance won't be compelling if it's not structured properly and reinforced with solid reasoning and evidence. Learn what elements every argumentative essay should include and how to structure it depending on your audience in this easy step-by-step guide.

### How to Write a Good Argumentative Essay: Easy Step-by-Step ...

Develop your argument. Develop your argument by considering the evidence and drawing your own conclusion. If you are considering a range of opinions, try to group them together under different headings. Look at the strengths and weaknesses of the different sets of evidence and present these clearly and in a critical way.

### Build your argument | Academic writing | Library ...

1. Select your thesis. Your thesis is the theory you're attempting to prove. Choose something that is debatable, and be as specific as possible. For example, instead of saying, "Pollution is bad for the environment," which is not debatable, say, "To reduce pollution, the government should tax car owners more heavily."

### How to Make a Logical Argument: 14 Steps (with Pictures ...

In logical terms, this three-step process involves building a logical argument. An argument contains a set of premises at the beginning and a conclusion at the end. In many cases, the premises and the conclusion will be linked by a series of intermediate steps.

### Building Logical Arguments - dummies

When shaping an argument you'll have to explain why your belief is reasonable and logical, so list points you can use as evidence for or against an issue. Ultimately, determine your side of the argument and make sure you can back up your point of view with reasoning and evidence.

## **Tips on How to Write an Argumentative Essay**

To develop your argument, you would then define your terms and prove your claim with evidence from Wright's drawings and buildings and those of the other architects you mentioned.

## **Argument - The Writing Center • University of North ...**

In order to show that your claim is true, you would have to build your argument in steps. You would need to first provide an argument for the existence of mind-independent moral obligations. You would then need to provide an argument which shows that a particular mind-independent moral obligation exists.

## **Writing an Ethical Argument | HubPages**

An argument takes a stand on an issue. It seeks to persuade an audience of a point of view in much the same way that a lawyer argues a case in a court of law. It is NOT a description or a summary. This is an argument: "This paper argues that the movie JFK is inaccurate in its portrayal of President Kennedy."

## **Writing a Thesis and Making an Argument | History ...**

An argument is best opened with a label, which highlights what the argument is about. After that, the speakers will have to give an explanation, using logical links, as to why their position is correct. Next, they will have to use examples to prove that their explanation and links apply to real life.
