How To Think About Law

Thinking like a lawyer demands thinking within the confines of inductive and deductive forms of reasoning. As law students, we entered a world of rigorous dialogue in which abstractions are formulated and then described—usually leading to the discovery of a general principle or rule, which is then distinguished from another general rule. We learned how to narrow and intensify our focus.

Learning to Think Like a Lawyer

On law school exams, students learn to structure their answers using the acronym IRAC, which stands for Issue, Rule, Analysis and Conclusion. Failure to spot all possible issues can derail the entire answer. For example, suppose you're walking down a street and notice a ladder leaned against a building.
