GUI Testing

HP UFT stands for HP Unified Functional Testing software or the Quick Test Professional (QTP), a product of Hewlett Packard (HP). This testing tool allows software testers to automate functional testing, thus creating automated test scripts for regression, functional testing, creating test data etc. QTP tool makes use of the VBScript scripting

Online Library Hp Utf Training Guide

language to create the automation test scripts.

QTP Course - UFT Training - Learn QTP Course Online ...

Formerly known as HP QuickTest Professional (QTP), Unified Functional Testing (UFT) provides functional and regression test automation. It uses the Visual Basic Scripting Edition (VBScript) as its

Online Library Hp Utf Training Guide

scripting language. UFT automates testing through an intuitive, visual user experience that ties manual, automated, and framework-based testing together in one IDE.
