Separate play areas for children under 5 should be available and maintained. For babies who are learning to walk, the play area should have a smooth and easy surface to walk on. If your baby has fairly good head control and can sit up with support (usually around 9 months old), give the baby (bucket-shaped) swings a try.

Scat is another term for feces, and scat sex or scat play refers to using scat in sexual activities. Although playing with someone's scat is generally regarded as safe if proper protection is used (think latex gloves, plastic wrap, dental dams, washing with soap before and after sex), eating someone else's scat can greatly increase one's risk of parasitic, bacterial, and viral infections.
