Amazon.com: Polar Water Cooler

4) Your cooler is being used by too many people - This is similar to someone emptying the tank. If your office has 50 people and they're all using one water cooler it'll struggle to keep up, it's like trying to get 50 people into a mini, it sounds like fun but its probably not going to work.

Water Cooler Troubleshooting Guide

Always unplug your water cooler dispenser before doing any repair or maintenance on it. Then, remove the water jug from the top and locate the coils on the inside. You will find more than one if you have a dispenser with both hot and cold spouts. Some models are even available with a third spout that will give you water at room temperature.
